

# Constructive Thinking Inventory Score Report

by  
Seymour Epstein, PhD  
and  
PAR Staff

## Client Information

**Name:** John T. Smith  
**Client ID:** 123-45-6789  
**Gender:** Male  
**Test Date:** 08/29/2001

Use of this score report requires a complete understanding of the *Constructive Thinking Inventory* (CTI) and its interpretation, applications, and limitations as presented in the CTI Professional Manual. This report contains raw and standardized scores from the CTI. Users should refer to the CTI Professional Manual for procedures and guidelines for the interpretation of this report. Users should also refer to the Professional Manual for information about the psychometric characteristics of the CTI.

This report should be used as only one source of information about the individual being evaluated. In this respect, no decisions should be based solely on the information contained in this report. The raw and standardized scores contained in this report should be integrated with other sources of information when making decisions about this respondent.

This report is confidential and is intended for use by qualified professionals who have sufficient knowledge of psychometric testing and the CTI. This report should not be released to the respondent or to individuals who are not qualified to interpret the results.
